

**Nicolas Denies, Ph.D.**

[linkedin.com/in/nicolas-denies-84485257](https://www.linkedin.com/in/nicolas-denies-84485257)

Nicolas is civil engineer and specialises in geotechnics. He is currently Deputy Head of Laboratory in the Geotechnical Division of the Belgian Building Research Institute. His core activities are in deep mixing technology, ground improvement works and geotechnical monitoring. He is also involved in testing of piles, ground anchors, jet grouting columns and micropiles. Nicolas is member of the Belgian Society for Soil Mechanics, and since 2013 secretary of the ISSMGE TC211 Ground Improvement.
